Thermal Solution
5G Telecom Base Station
AAU/BBU/DU/CU/ODU/IDU
BTS/Small Cell

*All products are RoHS compliant.

ABOUT SUNON

Over 41 years, SUNON has specialized in various types of thermal solutions related to motors, fans, and ventilators for a wide range of applications. We offer optimal thermal solutions and prompt responses to clients' needs, with customer service and technical support networks all around the world.

5G ERA

Smart Life
High-speed Connections

Global corporations have invested time and effort in building 5G infrastructure and networks. The best 5G operating performance is determined by a seamless integration of ultra-high speed, ultra-low latency and high capacity. SUNON can design suitable thermal modules to meet 5G thermal needs and offer an optimal and efficient thermal solution in the limited spaces of 5G infrastructure's internal structures.

Base Stations

Networking

ODU / IDU
 Customized thermal modules
 Axial fan series:30x10/40x20/92x25mm
 Axial Blower series:45x10mm

AAU / RRU/ BBU
 Customized thermal modules
 Axial fan series:40x28/80x38mm

BTS
 Customized thermal modules
 Axial fan series:120x38mm

5G Small Cell
 Customized thermal modules
 Axial fan series:
 40x10/40x20/40x28/50x20mm
 60x14/60x15/60x25mm
 70x18/92x25mm

Wi-Fi 6 Router
 Customized thermal modules
 Axial fan series:
 40x10/40x20/50x10/50x15/50x20mm
 60x15/70x15/70x18mm

Switch / Router
 Customized thermal modules
 Axial fan series:
 1U -38x28/40x20/40x28/40x56mm
 2U -60x38/60x56/60x76/80x80/80x86mm
 4U -92x38/120x38/120x76mm
 Others -30x04/30x06/30x10/35x07/35x10mm
 40x10/40x20/45x10/50x06/50x10/50x15/50x20/55x08mm
 60x12/60x15/70x15/70x18/97x33mm

Server / Edge / Storage
 Customized thermal modules
 Axial fan series:
 1U -40x28/40x56mm
 2U/4U -60x38/60x56mm
 80x38/80x56/80x80/80x86mm

SUNON × 5G

Facing 5G Era fast development, SUNON with solid technical support skills can design a variety of higher performance thermal products In response to the growing 5G industry, so that we offer the best thermal solution for various 5G applications.

SUNON Optimal Cooling Solution

Cooling Fans		Cooling Modules				
Product Info	DC Fan & Blower EC Fan AC Fan & Blower	Air Cooling	Liquid Cooling	Passive Cooling		
		Fan Cooling Module	Cold Plates	Heat Sink (HS)	Heat Pipe (HP)	Vapor Chamber (VC)
		Custom Design	Integral Pipelining Embedded	Extrusion Die Casting Skived Fin Stacked Fin	Custom Design	Custom Design
Features	<ul style="list-style-type: none"> • High fan efficiency • Low noise • Energy saving • Long life 	<ul style="list-style-type: none"> • The most efficient heat dissipation solution 	<ul style="list-style-type: none"> • Compact design • Large power carrier • Effective space utilization 	<ul style="list-style-type: none"> • High reliability • Economic thermal solution 	<ul style="list-style-type: none"> • Various pipe design • Flexible configuration 	<ul style="list-style-type: none"> • Better isothermal system • High Qmax

SUNON Comprehensive Thermal Solution and Technical Support Service

SUNON is an original cooling product manufacturer. We are 100% research-based, designing and manufacturing a variety of fans, vapor chambers and heat pipes and more, We can configure both active and passive cooling components to provide our clients a full range of cooling solutions through the use of scientific simulation and equipment. SUNON aims to give excellent service in thermal solutions, satisfying clients' thermal requirements for any function, sizes, and budget.

WHAT WE DO

CMSEM One-Stop Thermal Solution Service

SUNON provides a set of CMSEM services, designing thermal solutions from scratch. We work together with our clients to design the best thermal modules for their individual needs. Then, we create a model to simulate and optimize each module's thermal performance, which is passed through various estimation and mass-production phrases. Through collaboration, the highest quality of service, and a timesaving process of solving heat problems, SUNON provides our clients with optimal thermal solutions.

5G Telecom Base Stations

Steadily managing high-powered base station infrastructure's function ensures a better quality of telecommunication transmission. A series of electrical waves is processed and sent without latency by using appropriate thermal modules for base station applications, knowing that, SUNON can customize the thermal solution exclusive to base station infrastructure use.

SUNON can offer custom-designed thermal modules to various base station applications by flexibly configuring both active cooling fans and passive cooling components. SUNON's compact and highly efficient thermal solution can be designed to meet all clients' thermal requirements.

AAU/BBU/RRU

High-effective heat pipe module is integrated with the base to enhance a whole thermal solution's effectiveness.

Cooling Module

DU / CU

Large-area vapor chamber module is used to increase thermal capacity that effectively dissipates heat in the systems.

BTS / RBS

BTS/RBS cabinet door with fans installed increases the operating performance of BTS/RBS systems.

Small Cell

The integration of cooling module and fan module creates thermally synergistic effects and therefore systems can operate effectively and smoothly.

Thermal Modules

Module Type	Vapor Chamber (VC)	Heat Pipe (HP)	Cold plate (CP)
			
Dimension (mm)	250 x 250 x 52	200 x 180 x 20	300 x 150 x 10
Watts (W)	300W	250W	200W
Features	<ul style="list-style-type: none"> · Customized design based on system structure. · Closely attaches to heat source to enhance thermal performance. 	<ul style="list-style-type: none"> · Various shape designs available. · Highly heat dissipation effectiveness. 	<ul style="list-style-type: none"> · Compact design fitting in limited spaces. · Highly thermal effectiveness and stability.

Slim-Typed Cold Plate Solution

- > A leading cooling module for 5G base station application use.
- > Quickly solve high heat problem generated by multiple heat sources in a limited space.
- > The embedded tubes can be designed flexibly to fit in system structures that sustains highly thermal effectiveness.

High-Effective Fan Tray Solution

- > The best thermal solution, smart fans with dustproof, waterproof and salt fog protection design.
- > Customized design based on base station system structures.
- > Suitable for base station applications operating outdoors and in harsh environments.
